

air-lux® PIVOT DOOR

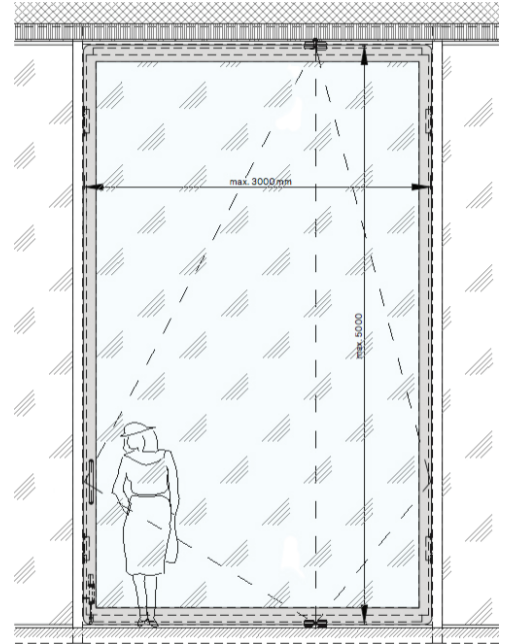

The ground-breaking Air-Lux Pivot Door provides a unique and enviable aesthetic without the typical draw-backs associated with pivoting entrance doors. The robust and dynamic hardware allows for incredibly large door panels to effortlessly rotate on a central or lateral axis, providing a show-stopping alternative to conventional doors at oversized entrance locations.

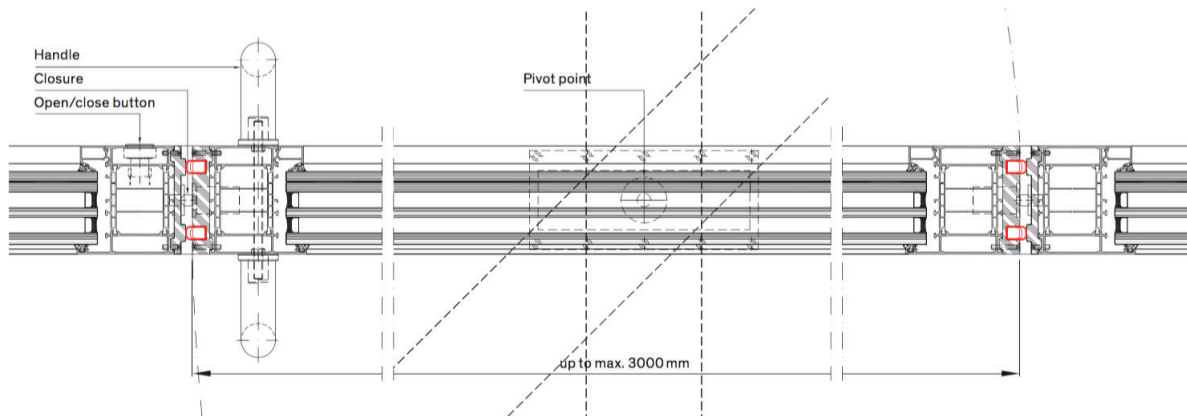

A state-of-the-art air and water sealing system ensures that this door is not only eye-catching but also far exceeds performance standards. High-quality materials manufactured in Switzerland assure the Air-Lux Pivot Door is elegant, robust and meets the highest quality standards.

Max Dimensions

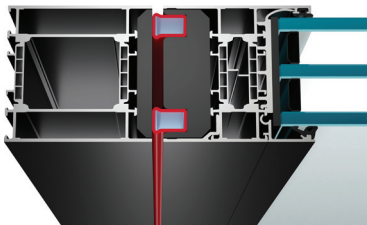

9'-8"x16'-4" (WxH) / 3000mm x 5000mm (WxH)

Cross-Section

Air-Lux Sealing

Active

With the press of a button, air is introduced into the frame. This closes the gap between the slider and the fixed frame, creating a perfect seal.

Inactive

To open the unit, the button is pressed a second time. The air is released and the seal retracts to its original concave profile.
