

Clean. Modern. Precise.
Double pane and triple pane glass facade walls with superior thermal performance.
The CW delivers design, value and durability.

CURTAIN WALL

The Glo Curtain Wall (CW) has a modern aesthetic, designed to create nearly seamless exterior glass facades. With endless configurations possible the Curtain Wall is custom crafted to meet a variety of functional and aesthetic requirements while also delivering excellent thermal performance.

The larger thermal break, double or triple pane glazing and durable framing achieves a greater level of energy performance in a slim modern aluminum frame.

Glazing options are available with SHGC from 0.28-0.60

THERMAL PERFORMANCE

CW Double Pane
R-5 (Uw 0.20)

CW Triple Pane
R-6 (Uw 0.16) - R-7 (Uw0.14)

Tested in accordance with EN ISO 10077
