

UNLIMITED POSSIBILITIES

With Andersen® E-Series windows and patio doors, the home you've always imagined can be more than a dream. More than a vision. It can be a reality.

- Wood sash and frame are clad with heavy-gauge aluminum
- Heavy-gauge cladding offers greater structural capabilities than thinner, roll-form aluminum
- Baked-on, silicone polyester enamel exteriors offer virtually maintenance-free performance and durability
- Many E-Series windows and patio doors have options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.
- Choose from 50 exterior colors at no additional charge
- Anodized finishes and custom colors available
- Select from a variety of wood species and interior finishes
- Choose from a variety of hardware, divided light and decorative glass options and more

E-SERIES

STORMWATCH® PROTECTION

E-Series windows and patio doors are available with Stormwatch Protection for coastal areas

For more information, visit andersenwindows.com/e-series

*Actual wood species is either Sapele or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies.

**Dark Bronze and black are also available on maple.

†Anodized silver is only available on maple.

Printing limitations prevent exact replication of colors and finishes. See your Andersen dealer for actual color and finish samples.
